Gamer Army

After Rogan Webber levels up, yet again, on his favorite video game, Laser Viper, the creator of the game invites him to join the five best players in the country for an exclusive tournament. The gamers are flown to the headquarters, where they stay in luxury dorms and test out cutting edge virtual-reality gaming equipment. It's the ultimate gaming experience!

But as the contest continues, the missions become harder and the gamers suspect that it may not be what it seems. Why do the soldiers and robots they fight act so weird? What's behind the strange game glitches? And why does the game feel so...real? This Gamer Army must discover the truth and make things right...in a dangerous world where video games have invaded reality.
