Wildcat Girls Volleyball Program

There are many special activities that the athletes take part in during the season with their teammates and within the GVB Program. As the varsity coach of the Wildcat Girls Volleyball Program, my hope is that volleyball becomes an avenue for "Making a Difference" because of the life-long memories and the overall experience we provided for our players. The "extras" that they had an opportunity to be a part of and the program approach combine to form the foundation that I want the players to walk away with at the end of each season and at the end of their Wildcat Volleyball career. I am most proud when the resonating theme that I hear from former players is not necessarily about their team record or a finish in a specific tournament, but the overall **EXPERIENCE** they had in our program, the friendships they established, and the memories they cherish having been a significant part of it.
