Friends of Project Arrow,

There are no requirements on school districts to provide services to academically talented students. The Indian Prairie Project Arrow PTA aims to be a strong voice in support of IPSD 204 and their commitment to the Project Arrow program.

Indian Prairie Project Arrow PTA
Serving the academically talented students of Illinois School District 204
IPPA PTA

With so much financial uncertainty in our state, a strong and active PTA membership sends a loud message that Project Arrow is a vibrant and valuable part of our school district.

Additionally, your membership contribution allows us to directly enrich the education of these children. This year, in addition to our popular middle school and high school transition forums, we will be sponsoring teachers to attend the IAGC conference and awarding grants for PA classroom innovation.

If you have a question or comment, please feel free to email us at ippa.pta@gmail.com. Follow us on twitter (@IPPA_PTA) and facebook (IPPA PTA) for the latest events and information.

I encourage you and anyone else who values the Project Arrow program to join the IPPA PTA so that we can support the great work of the students and educators of our district.

Best wishes for a great school year and thank you for your interest in the IPPA PTA.
