

# Tiny Text Tips

TINY TIPS CAN ADD UP TO A BIG IMPACT!

You are your child's first, best, and favorite teacher. The brain development that occurs during early childhood is rocket science! The grownups in a child's life are the most important players and advocates for this important time of momentous growth.

By engaging in purposeful play with young children, caregivers can greatly increase positive learning experiences in this crucial part of childhood, supporting the foundation for a lifelong love of learning.

Sign up for FREE to receive a weekly text message, tailored for your child's age, with suggestions for an activity, link to a resource, or snippet of developmental information — DCM is here to help you and your little one play, learn, grow, and thrive together.
