

**Girls in Engineering, Math and Science Club Presents
its 6th Annual
Waubonsie Valley STEM Fest**

**All middle school students in district 204 are welcome
to attend!!**

- At this open house, you will learn how to extract DNA from strawberries or kiwis.
- Learn about Biotechnology and how it solves crimes, helps study diseases, and creates cures.
- Play interactive DNA games
- Build a robotic arm
- Use a cereal box to make a photospectrometer
- Learn chemistry principles by making flubber or elephant's toothpaste
- Watch the star show in the Planetarium
- Learn about engineering projects you can do on your own
- Try out interactive sites for computer coding, circuit building and others

Location: Waubonsie Valley High School, Room 179

Date: March 17th from 6-7:30 PM

Any questions can be directed to Ms. Young at sara_young@ipsd.org

Or Ms. Westfall to: pam_westfall@ipsd.org

Please Note: If attending, please drive around to the back of the school and follow the signs to the Planetarium and enter by the DNA sculpture.
