

STEAM CAMP

Safe n' Sound YMCA is excited to announce their newest camp!

STEAM stands for **Science, Technology, Engineering, Art, and Math.**

STEAM Camp is taught by a licensed teacher and will provide children going into grades 1-4 an opportunity to have a summer filled with scientific investigations, games, crafty projects, and fun!

Keep your child's mind active and engaged throughout the summer.

Session One (June 17-21)

If You Build It..

Join us for amazing engineering experiments! Learn the basics of architecture and work as a team to build and design different structures.

Session Two (June 24-28)

Crazy Concoctions

Goop Rules! Join us for a wacky week of creating concoctions, some of them edible, some too icky to think about eating! Campers will make magnetic slime, Magic Mud, bath bombs and homemade ice cream!

Session Three (July 8-12)

Amazing Animals

Calling all animal lovers and future zoologists! All week we will be learning about animals and their habitats. We will have a few furry friends stop by as well.

Session Four (July 15-19)

littleBits

Campers will go through a complete scientific journey of invention, through challenges and team building.

Session Five (July 22-26)

Mini Monets

Any budding artist will love this week! Learn about famous artists such as DaVinci, Kusama and Monet and work in the same mediums those artists worked with.

Session Six (July 29- Aug 2)

Super Hero Science

Tony Stark worked with technology to create Iron Man. Campers will dissect the science behind super heroes. Design new gear for your favorite super hero to help them fight crime!

Location: Camp Aurora

800 Asbury Drive, Aurora

Camp is in session

9:00am-11:00am on M, T, Th, F

Session Fee: \$80 per week
