

NOBODY

knows your
child better
than *you.*

Do you have a child between
the ages of 2 and 5?

- Do you think your child hears well?
- Can you understand most of what your child says? Can others?
- Does your child walk, run, and climb like other kids the same age?
- Do you have concerns about your child's vision?
- Has your child had any medical problems in the past few months?
- Are you worried about your child's behavior or relationship skills?
- Does anything about your child concern you?

We can help make sure everything is OK!

We offer free developmental screenings, and, if needed, an in-depth look at your child's strengths and needs.

Call your school district today!
