

Afterschool Enrichment Solutions presents
an Afterschool Chess Club
and "Let's Build It!" Engineering
with Professional Instruction at May Watts
Elementary

Winter session: 8 classes on Fridays, 3:35-4:35pm.
January 12th – March 16th, no class 1/26, 3/2.

CHESS

Develop your child's intellect through the royal game of chess! Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Also, chess has been proven to enhance children's motivation, concentration, focus, social skills, and creativity. Open to grades K-5.

LET'S BUILD IT

Let's Build It – Exciting Electronics! is an exhilarating, cutting-edge area of engineering. In this unit, students will design, build, and test various circuits and electronic projects. Instructors will guide students through core concepts of electrical engineering, introducing them to circuits and electrical components. Students will use hands-on projects and experiments to explore how electricity is part of our daily lives. No previous experience is necessary, just a desire to learn and build. Each student will receive an award on the last day of the session, as well as the opportunity to earn engineering belts to demonstrate their learned skills! Open to grades 1-5.

To sign up for the **Chess Club**, or please visit <http://www.chessscholars.com/signup> . You will need to enter the class code **MWN1.12.18C** in order to register. Please register by December 29th for the early bird price of \$125.00.

To sign up for **Let's Build It**, please visit <http://www.learningmeansfun.com/signup>. You will need to enter the class code **MWN1.12.18** in order to register. Please register by December 29th for the early bird price of \$139.99.

Please register by January 10th, 2018.
